Task 2: Food Order

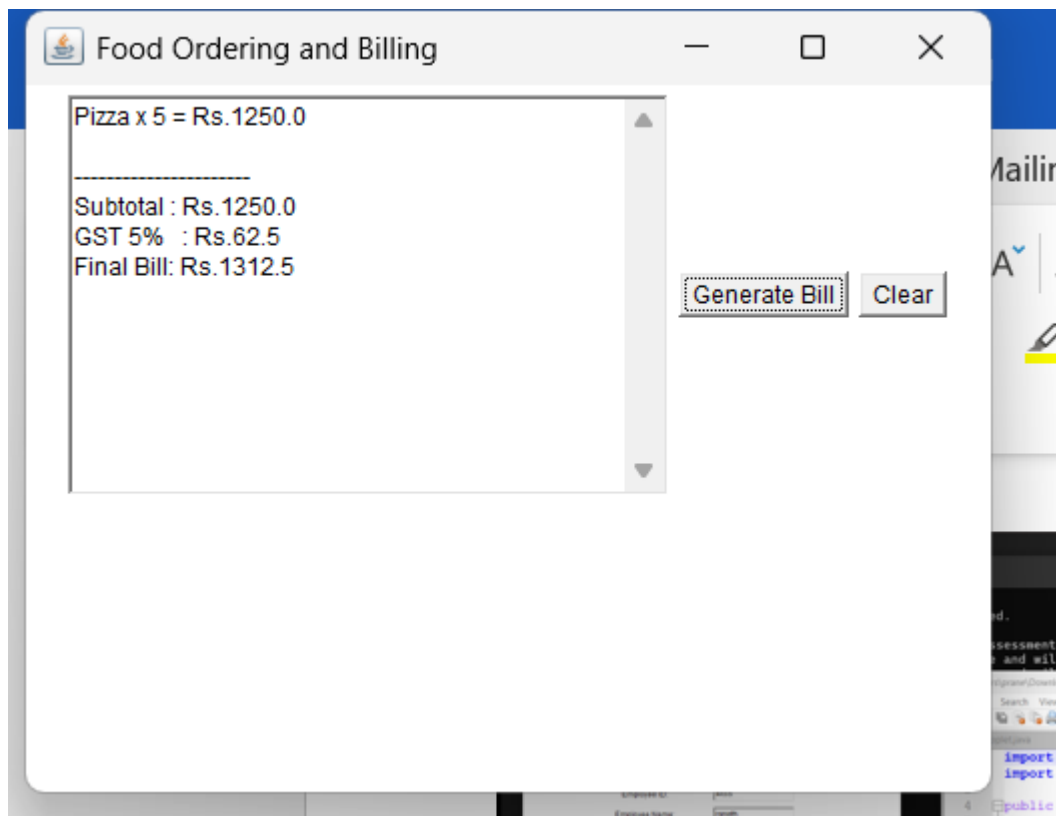

The image shows two overlapping screenshots of a web application titled "Food Ordering and Billing".

The top screenshot displays the initial form with the following fields and controls:

- Customer Name:** A text input field containing the value "praneeth".
- Table No:** A text input field containing the value "5".
- Next:** A button located to the right of the Table No field.

The bottom screenshot shows the next step in the process, with the following fields and controls:

- Food Item:** A dropdown menu currently showing "Pizza".
- Quantity:** A text input field containing the value "5".
- Add Item:** A button located to the right of the Quantity field.
- Previous:** A button located to the left of the Add Item button.
- Next:** A button located to the right of the Add Item button.

Code :

```
